

Doctor, this is personal.
Are my records private?

No. Government agents may now enter my office without notice & seize your records

Mommy,
how far is it to AB?

Dear MLA,

I just heard about Bill 36: the *new* Health Professions & Occupation Act. **I am very upset!** I want my health care providers to practice without interference from politicians. **My healthcare is at risk.**

Bill 36 will worsen:

- **Staff shortages** - providers are leaving BC
- **E.R. shutdowns** - no doctors or nurses available
- **Long wait times** - delays can kill patients

If you want my vote, get rid of Bill 36!

Sincerely,
